EDUCATION

Thapar Institute Of Engineering and Technology, Patiala <i>B.E. Computer Engineering, CGPA: 8.7</i>	August 2022 - July 2026
Sky Hawk International School, Delhi <i>12th Non Medical, CBSE, Percentage: 93.60</i>	April 2021 - March 2022
Vaish Model Sr. Sec. School, Bhiwani <i>10th CBSE, Percentage: 93.80</i>	April 2019 - March 2020

EXPERIENCE

Software Development Engineer Intern <i>Amazon</i>	January 2026 – June 2026
- Engineered a multi-marketplace runtime configuration migration, transforming 200+ runtime configuration entries into a backward-compatible schema that enabled a unified codebase across regional marketplaces. - Designed and shipped production-ready backend and frontend features, including the Thunderbolt one-click payment fallback, leveraging Java, runtime configuration and feature flagging. - Debugged distributed-system issues across deployment infrastructure, service routing, authentication, and pre-production environments; authored 5 design documents, contributed 15+ code reviews, and operational dashboards.	

PROJECTS

ZapGo <i>HTML, CSS, ReactJs, Firebase, Draw.io, APIs</i>	July 2025
- Designed a web-based EV charging platform with real-time route optimisation, station discovery, and an adaptive admin interface for slot control, outage tracking, and crowd reporting—boosting slot utilisation by 40% during peak testing. - Incorporated an intelligent e-auction algorithm that reduced peak-time booking conflicts by 30% through competitive bidding for high-demand slots, enhancing fair user allocation.	
Wally-Shopper <i>ReactJs, TypeScript, Supabase, Tailwind CSS, Shadcn-ui, APIs</i>	June 2025
- Developed an AI shopping assistant using facial emotion detection and purchase history, improving recommendation accuracy by 30%. - Built a smart-cart ecosystem integrating voice search, chatbot support, loyalty prediction, and voice-enabled payments.	
DevAI <i>Tailwind CSS, NextJs, Inngest, Neon Postgre, Clerk, Figma</i>	February 2025
- Created a Full-stack web app for resume creation, cover letter generation, and interview preparation using Next.js (frontend) and Neon PostgreSQL, Inngest (backend). - Leveraged Google Gemini 1.5 Flash and an AI-powered ATS checker to deliver real-time resume feedback and context-aware optimization aligned with job descriptions and recruiter systems.	

TECHNICAL SKILLS

Core Skills: OOPs, DSA, DAA, OS, DBMS, CN, ML/AI.
Languages: C/C++, Python, Java, MySQL, PL/SQL, JavaScript, HTML/CSS.
Frameworks and Libraries: Expertise in React.js, Node.js, Next.js, Pandas, NumPy.
Developer Tools: Git, VS Code, XCode, PyCharm, IntelliJ, Jupyter Notebooks.

POSITION OF RESPONSIBILITY

Joint Secretary <i>MLSC, Microsoft Learn Student Chapter, TIET, Patiala.</i>	June 2024
- Led the technical team for Makeathon6, the largest MLSC event, successfully organizing an event with over 3,000 participants. - Managed a cross-functional team of 400+ students while delivering a keynote to 800+ attendees and leading outreach initiatives that significantly boosted event engagement.	

ACHIEVEMENTS/CERTIFICATIONS

- ELC Activities:** Executed 5 projects at the university's Experiential Learning Centre, showcasing a practical approach to innovation and solution development.
- Walmart SPARKATHON:** Participated in Walmart Sparkathon, showcasing innovative solutions to enhance customer experience using AI-driven technologies.
